### An Economic Interpretation Of The

An Economic Interpretation of the Constitution of the United States argues that the structure of the Constitution of the United States was motivated primarily by the personal financial interests of the Founding Fathers; Beard contends that the authors of The Federalist Papers represented an interest group themselves.

### An Economic Interpretation of the Constitution of the ...

In his piercing introduction to An Economic Interpretation the author wrote that "whoever leaves economic pressures out of history or out of discussion of public questions is in mortal peril of substituting mythology for reality." It was Beard's view that the founding fathers, especially Madison, Jay, and Hamilton, never made such a miscalculation.

...its most famous expression in *An Economic Interpretation of the Constitution of the United States* (1913). In this book he claimed that the Constitution had been formulated by interest groups whose motivations were just as much personal financial ones as they were political ones. Although American politicians were generally outraged...

**An Economic Interpretation of the Constitution of the ...**

*An Economic Interpretation of the Constitution of the United States*. In this famous study, the author turned the hagiography of many earlier American historians on its head. Unlike those writers, who had stressed idealistic impulses as factors determining the structure of the American government, Beard questioned the Founding Fathers' motivations in drafting the Constitution and viewed the results as a product of economic self-interest.

Consider the economic interpretation of the duality of linear programming - first for a maximisation problem and then for a minimisation problem. The maximisation problem: Consider the following linear programming problem. The optimal solution to this problem gives production of 18 units of  $x_1$  and 8 units of  $x_2$  per week. It yields the maximum ...
