engineers to solve problems they would otherwise not be able to solve. The use of examples, solved and explained in detail, and supported with property diagrams that are drawn to scale, is ubiquitous in this textbook. The examples are not trivial, drill problems, but rather complex and timely real world problems that are of interest by themselves. As with the presentation, the solutions to these examples are complete and do not skip steps. Similarly the book includes numerous end of chapter problems, both typeset and online. Most of these problems are more detailed than those found in other thermodynamics textbooks. The supplements include complete solutions to all exercises, software downloads, and additional content on selected topics. These are available at the book web site

We all dream about it, but Wade Rouse actually did it. Discover his journey to live the simple life in this hilarious memoir. Finally fed up with the frenzy of city life and a job he hates, Wade Rouse decided to make either the bravest decision of his life or the worst mistake since his botched Ogilvie home perm: to uproot his life and try, as Thoreau did some 160 years earlier, to "live a plain, simple life in radically reduced conditions." In this rollicking and hilarious memoir, Wade and his partner, Gary, leave culture, cable, and consumerism behind and strike out for rural Michigan—a place with fewer people than in their former spinning class. There, Wade discovers the simple life isn't so simple. Battling blizzards,

bloodthirsty critters, and nosy neighbors equipped with night-vision goggles, Wade and his spirit, sanity, relationship, and Kenneth Cole pointy-toed boots are sorely tested with humorous and humiliating frequency. And though he never does learn where his well water actually comes from or how to survive without Kashi cereal, he does discover some things in the woods outside his knotty-pine cottage in Saugatuck, Michigan, that he always dreamed of but never imagined he'd find—happiness and a home. At Least in the City Someone Would Hear Me Scream is a sidesplitting and heartwarming look at taking a risk, fulfilling a dream, and finding a home—with very thick and very dark curtains.

THIS CASEBOOK contains a selection of U. S. Court of Appeals decisions that analyze and discuss issues surrounding election law. Volume 1 of the casebook covers the District of Columbia Circuit and the First through the Fifth Circuit Court of Appeals. * * *

According to the constitutional blueprint for implementing the Electoral College, the States alone (through their legislatures) possess the power to determine the manner of appointing presidential electors. See U.S. Const. art. II, § 1, cl. 2; *id.* amend.

XII. The text of the Elector Clause reads: "Each state shall appoint in such Manner as the Legislature thereof may direct, a Number of Electors equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress. . . ." *Id.* art. II, § 1, cl. 2. In interpreting the bounds of the Elector Clause, the Supreme Court has stated that "[t]he state legislature's power to select the manner for appointing electors is plenary." *Bush*, 531 U.S. at 104 (citing *McPherson*, 146 U.S. at 35). It is precisely for this reason that the Constitution does not prescribe or endorse any selection method in particular. See *McPherson*, 146 U.S. at 28 ("The final result [of the constitutional convention] . . . reconciled contrariety of views by leaving it to the state legislatures to

appoint directly by joint ballot or concurrent separate action, or through popular election by districts or by general ticket, or as otherwise might be directed."); see also *id.* at 27 ("The constitution does not provide that the appointment of electors shall be by popular vote, nor that the electors shall be voted for upon a general ticket, nor that the majority of those who exercise the elective franchise can alone choose the electors."). State legislatures have utilized a variety of appointment mechanisms since the framing of the Constitution, but in recent memory, "[h]istory has . . . favored the voter." *Bush*, 531 U.S. at 104. Of course, the hand that giveth, also taketh away (if it so desires). See *id.* (citing *McPherson*, 146 U.S. at 35) ("The State . . . after granting the franchise in the special context of

Article II, can take back the power to appoint electors.").Plenary as a state legislature's power to dictate the manner of appointing presidential electors may be, it is not beyond judicial review. On the contrary, it is "always subject to the limitation that [it] may not be exercised in a way that violates other specific provisions of the Constitution." Rhodes, 393 U.S. at 29; see also Williams, 288 F. Supp. at 626 (noting that in order to pass muster, "the manner of appointment must itself be free of Constitutional infirmity"). The Equal Protection Clause of the Fourteenth Amendment is one such well-established limitation (the First Amendment is another, as we will explain later). See Rhodes, 393 U.S. at 29 ("[N]o State can pass a law regulating elections that violates the Fourteenth Amendment[. . . .]");
