Complete A level Physics Notes Cambridge International AS and A Level Physics builds on the skills acquired at Cambridge IGCSE (or equivalent) level. The syllabus includes the main theoretical concepts which are fundamental to the subject, a section on some current applications of physics, and a strong emphasis on advanced practical skills.

A level Physics Notes - 9702 - CIE Notes

4.1 Waves and vibrations Types of waves: Waves that pass through a substance are vibrations which pass through that substance. Sound waves in air are created by making a surface vibrate so it sends compression waves through the surrounding air. Sound waves, seismic waves and waves on strings are known as mechanical waves. Longitudinal!

Edexcel A Level Physics. Students of Edexcel International Advanced Level in Physics will develop essential knowledge and understanding, including an appreciation of the link between theory and experiment, and the skills to design, execute and analyse their own investigations.

With My Revision Notes: AQA A Level Physics you can: - Manage your own revision with step-by-step support from experienced teacher and examiner Keith Gibbs - Apply biological terms accurately with the help of definitions and key words - Plan and pace your revision with the revision planner - Test understanding with questions throughout the book - Get exam ready with last minute quick quizzes available on the Hodder Education website

This book has been written for modules 5 and 6 (the second year) of the OCR A Level Physics A (H556) course by University of Cambridge student Joe Harris. It groups information into detailed sets of bullet points - rather than big paragraphs - making it simple to revise and learn from, and has been written to match the specification. To download a .pdf preview, visit <https://www.joeharris.me/physics-revision-guide>

International A/AS-level Science Revision Guides provide exam-focused texts to guide students through the content and skills of the course to prepare them for their AS and A-level exams. - The Introduction provides an overview of the course and how it is assessed, advice on revision and taking the examination papers. - The Content Guidance sections provide a summary of the facts and concepts that you need to know for the examination. - The Experimental Skills & Investigations sections explain the data-handling skills you will need to answer some of the questions in the written papers. It also explains the practical skills that you will need in order to well in the practical examination. - The Questions and Answers sections contain a specimen examination paper for you to try, followed by a set of student's answers for each question
