The United States is losing its moral credibility. The European Union is breaking apart. Africa, the Arab world, and the Mediterranean are becoming battlefields for various regional and global powers. Extreme forms of nationalism are on the rise. Thus divided, humanity is unable to address global threats to the environment and our health. How did we get here and what is yet to come? World-renowned scholar and bestselling author Amin Maalouf seeks to raise awareness and pursue a new human solidarity. In Adrift, Maalouf traces how civilisations have drifted apart throughout the 20th century, mixing personal narrative and historical analysis to provide a warning signal for the future.
European and Arab versions of the Crusades have little in common. For Arabs, the twelfth and thirteenth centuries were years of strenuous efforts to repel a brutal and destructive invasion by barbarian hordes. Under Saladin, an unstoppable Muslim army inspired by prophets and poets finally succeeded in destroying the most powerful Crusader kingdoms. The memory of this greatest and most enduring victory ever won by a non-European society against the West still lives in the minds of millions of Arabs today. Amin Maalouf has sifted through the works of a score of contemporary Arab chroniclers of the Crusades, eyewitnesses and often participants in the events. He retells their stories in their own vivacious style, giving us a vivid portrait of a society rent by internal conflicts and shaken by a traumatic encounter with an alien culture. He retraces two critical centuries of Middle Eastern history, and offers fascinating insights into some of the forces that shape Arab and Islamic consciousness today. "Well-researched and highly readable." Guardian "A useful and important analysis adding much to existing western histories ... worth recommending to George Bush." London Review of Books "Maalouf tells an inspiring story ... very readable ... warmly recommended." Times Literary Supplement "A wide readership should enjoy this vivid narrative of historic events." The Bookseller "Very well done indeed ... Should be put in the hands of anyone who asks what lies behind the Middle East's present conflicts." Middle East International
Origins, by the world-renowned writer Amin Maalouf, is a sprawling, hemisphere-spanning, intergenerational saga. Set during the last quarter of the nineteenth century and the first quarter of the twentieth—in the mountains of Lebanon and in Havana, Cuba—Origins recounts the family history of the generation of Maalouf's paternal grandfather, Boutros Maalouf. Maalouf sets out to discover the truth about why Boutros, a poet and educator in Lebanon, traveled across the globe to rescue his younger brother, Gabrayel, who had settled in Havana. What follows is the gripping excavation of a family's hidden past. Maalouf is an energetic and amiable narrator, illuminating the more obscure corners of late Ottoman nationalism, the psychology of Lebanese sectarianism, and the dynamics of family quarrels. He moves with great agility across time and space, and across genres of writing. But he never loses track of his story's central thread: his quest to lift the shadow of legend from his family's past. Origins is at once a gripping family chronicle and a timely consideration of Lebanese culture and politics.
Having fled his homeland 25 years ago for France, Adam returns to the East for the first time to see a dying friend. Among the milk-white mountains of his homeland, the past soon catches up with him. His childhood friends have all taken different paths in life - and some now have blood on their hands. Loyalty, identity, and the clash of cultures and beliefs form the heart of this big and bold novel.
I want to try and understand why so many people commit crimes in the name of identity, " writes Amin Maalouf. Identity is the crucible out of which we come: our background, our race, our gender, our tribal affiliations, our religion (or lack thereof), all go into making up who we are. All too often, however, the notion of identity—personal, religious, ethnic, or national—has given rise to heated passions and even massive crimes. Moving across the world <span> </span> ' <span> </span> s history, faiths, and politics, he argues against an oversimplified and hostile interpretation of the concept. He cogently and persuasively examines identity in the context of the modern world, where it can be viewed as both glory and poison. Evident here are the dangers of using identity as a protective—and therefore aggressive—mechanism, the root of racial, geographical, and colonialist subjugation throughout history. Maalouf contends that many of us would reject our inherited conceptions of identity, to which we cling through habit, if only we examined them more closely. The future of society depends on accepting all identities, while recognizing our individualism.
Born into a Christian minority in Lebanon and since settled in France, acclaimed writer Amin Maalouf claims a unique position in global conversation. His first book, The Crusades through Arab Eyes, was a critical and commercial success and remains in print after 20 years. In Disordered World, Maalouf combines his command of history with a critical perspective on contemporary culture East and West-joining them with a fierce moral clarity and a fluid, propulsive style. In this "disordered world" of ours, Maalouf argues, the human race faces any number of urgent threats: climate change, global financial crisis, humanitarian disasters. Yet these threats have not united us. In fact, tensions are rising between the Arab world and the West. This is not, Maalouf maintains, a "clash of civilizations." We lack ideological debate because there seems to be no common ground on which to start discussion. Rather, our civilizations are exhausted, declined into moral incompetence. The West has betrayed its enlightenment values, even as it pushes democracy abroad. The Arab world, nostalgic for its golden era, has rushed toward radicalism. Maalouf eruditely examines a century of confrontations between our cultures, from the secularization of Turkey under Atatürk, through Nasser and the Suez Crisis, the Six Day War, the Camp David Accords and the assassination of Sadat, and the U.S. wars on Afghanistan and Iraq. We keep adapting, Maalouf argues, our ancestral prejudices for contemporary scenarios. But in a voice that is intelligent, impassioned, and remarkably hopeful, Maalouf imagines that in the face of common challenges, we might just invent a new conception of the world we all share.
There are ninety-nine names for God in the Koran, is it possible that there is a secret one-hundredth name? In this tale of magic and mystery, of love and danger, Balthasar's ultimate quest is to find the secret that could save the world. Before the dawn of the apocalyptic 'Year of the Beast' in 1666, Balthasar Embriaco, a Genoese Levantine merchant, sets out on an adventure that will take him across the breadth of the civilised world, from Constantinople, through the Mediterranean, to London shortly before the Great Fire. Balthasar's urgent quest is to track down a copy of one of the rarest and most coveted books ever printed, a volume called 'The Hundredth Name', its contents are thought to be of vital importance to the future of the world. There are ninety-nine names for God in the Koran, and merely to know this most secret hundredth name will, Balthasar believes, ensure his salvation.

The notion of identity - personal, religious, ethnic or national - is one that has given rise to heated passions and crimes throughout the history of mankind. What it is that makes each one of us unique and dissimilar to any other individual has been one of the fundamental questions of philosophy from Socrates to Freud. In this important series of reflections, the author, a Lebanese who now lives in France, where he is a well-known writer and commentator, considers how we define ourselves and how identity is understood in the world's different cultures.
