While composing what would become his most enduring and popular book, E. B. White obeyed that oft-repeated

maxim: "Write what you know." Helpless pigs, silly geese, clever spiders, greedy rats-White knew all of these characters in the barns and stables where he spent his favorite hours as a child and adult. Painfully

shy, "this boy," White once wrote of himself, "felt for animals a kinship he never felt for people." It's all the more impressive, therefore, how many people have felt a kinship with E. B. White. Michael Sims

chronicles White's animal-rich childhood, his writing about urban nature for the New Yorker, his scientific research into how spiders spin webs and lay eggs, his friendship with his legendary editor, Ursula

Nordstrom, the composition and publication of his masterpiece, and his ongoing quest to recapture an enchanted childhood.

Author Lindsay H. Metcalf, a journalist who grew up on a family farm, shares this rarely told story of grassroots perseverance and economic justice. In 1979, US farmers traveled to Washington, DC to protest

Americans were now convinced
