This book explores the politics of place marketing and the process of 'urban reinvention' in Berlin between 1989 and 2011. In the context of the dramatic socio-economic restructuring processes, changes in urban governance and physical transformation of the city following the Fall of the Wall, the 'new' Berlin was not only being built physically, but staged for visitors and Berliners and marketed to the world through events and image campaigns which featured the iconic architecture of large-scale urban redevelopment sites. Public-private partnerships were set up specifically to market the 'new Berlin' to potential investors, tourists, Germans and the Berliners themselves. The book analyzes the images of the city and the narrative of urban change, which were produced over two decades. In the 1990s three key sites were turned into icons of the 'new Berlin': the new Postdamer Platz, the new government quarter, and the redeveloped historical core of the Friedrichstadt. Eventually, the entire inner city was 'staged' through a series of events which turned construction sites into tourist attractions. New sites and spaces gradually became part of the 2000s place marketing imagery and narrative, as urban leaders sought to promote the 'creative city'. By combining urban political economy and cultural approaches from the disciplines of urban politics, geography, sociology and planning, the book contributes to a better understanding of the interplay between the symbolic 'politics of representation' through place marketing and the politics of urban development and place making in contemporary urban governance.

An eye-opening and fascinating slow travel journey from an acclaimed writer who circled the globe without ever leaving the ground. In this age of globalism and high-speed travel, Seth Stevenson, the witty, thoughtful Slate columnist, takes us back to a time when travel meant putting one foot in front of the other, racing to make connections between trains and buses in remote transit stations, and wading through the chaos that most long-haul travelers float 35,000 feet above. Stevenson winds his way around the world by biking, walking, hiking, riding in rickshaws, freight ships, cruise ships, ancient ferries, buses, and the Trans-Siberian Railway- but never gets on an airplane. He finds that from the ground, one sees the world anew-with a deeper understanding of time, distance, and the vastness of the earth. In this sensational travelogue, each step of the journey is an adventure, full of unexpected revelations in every new port, at every bend in the railroad tracks, and around every street corner.

The Iron Kingdom: a half-mythical land conquered by barbarians an age ago, celebrated in song and legend. Here is a land of contrasts as beauty and savagery collide. The north-men, now savages no more, struggle to leave their brutal past behind as they strive to become more civilized and find peace. Yet, it remains a land of conflict ruled over by the Iron King, a mighty ruler, who is himself something of a legend. The king has grown old and the sun is setting on the days of his saga. Shadows grow long in the south, and Lord Garyth, a nobleman of doubtful lineage and agent of the crown is returning home. A celebrated warrior within the Iron Kingdom, Garyth is eager to get back to his home and family. However, he has discovered a shadowy plot that threatens the kingdom. Countless orcs gather under one banner in the mountains, their hungry eyes looking north, while worse creatures join them. War looms on the horizon, as some dark will seems to watch on in ravenous anticipation. To survive, the men of iron must once again fight against a seemingly overwhelming tide of darkness. This fight is not for land or wealth, this battle will be for their very survival.

Seabury Quinn was one of the most popular pulp authors of the early 20th century. Set in the aftermath of the Salem Witch Trials, 'Is the Devil a Gentleman?' is one of his best tales. Many of the demonic and thriller stories, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

"Masterful . . . Many books have been written about Streisand but few, if any, put readers as close to the subject as Mann does" (Miami Herald). A legendary singer, songwriter, actress, and filmmaker with multiple Academy, Emmy, Grammy, Tony, and even two Peabody awards to her name, Barbara Streisand is a talent like no other. In Hello, Gorgeous, celebrity biographer William J. Mann profiles the Brooklyn-born talent, focusing on her early years, honing her persona at Greenwich Village nightclubs like the Blue Angel and the Bon Soir. Streisand lost her father at an early age and had a rocky relationship with her mother, but her natural abilities and supernatural chutzpah soon earned her the role of a lifetime: a starring role as Fanny Brice in the Broadway musical, Funny Girl. In lush detail, Mann chronicles Streisand's dizzying ascent from an unknown dreamer into one of the world's most beloved superstars. "Mann's meticulous research and insightful analysis go deeper than any previous biography: shedding light on the formative years that shaped Streisand's persona, debunking some myths . . . and providing a cultural snapshot of the wild and free-spirited era in which Streisand blossomed." -USA Today
