Despite the notable Canadian presence in the field of psychology and law, there is currently no comprehensive Canadian textbook on the subject. While a few U.S. textbooks cover the field, they give little or no attention to Canadian law and research. In recognition of this problem, editors Regina Schuller and James Ogloff have put together an authoritative introduction to law and psychology for a Canadian audience. Within the fifteen chapters that comprise the book, leading Canadian scholars cover a wide range of topics spanning the applications of psychology - clinical, social, cognitive, developmental, experimental - in both criminal and civil areas of law. These include memory and eyewitness testimony, the jury, sentencing, competency to stand trial, criminal responsibility, and many others. The legal system in Canada serves as the backdrop for each of the chapters, which begin with an interesting case or anecdote that introduces the reader to some of the major issues facing psychologists and lawyers in this country. The book offers a compelling

Lesson plans linked to national standards help students develop lifelong writing skills and confidence as writers while preparing them for standardized writing tests.

You have brushed up on the tough interview questions. You have covered every area of your resume including that three month unemployment gap and you have studied up on the company. But there is one more thing you may not have thought of some questions you want to ask in your interview. Many prospective employees do not realize, or forget, that the interview process is a two way street. When the formal interview is over and the interviewer asks if you have any questions, now is the time to distance yourself from the competition. You should be asking questions to determine whether you would be happy in the position or with the company, but you need to ask the right questions. The questions you ask will help show what you can contribute to the organization. They also can help you figure out if you want this job. In this groundbreaking new book you will find over two hundred of the RIGHT kinds of questions to ask. You will be able to stand out from the others competing for the job and gain valuable insight into what working for a company would be like. A young Milrose State college student goes out early one morning to prepare for his first bicycle race and is abruptly sidetracked when he discovers the body of a young woman, sadistically murdered and nailed to the wall of a pavilion. There had never been a murder in this small Minnesota town and now the first one for the records is a crucifixion. Recently appointed to detective status, Sally Fairfield receives a phone call from Detective Bob Carpenter of the Milrose Police Department and reports to the scene of her first homicide investigation with a hangover. Assigned to investigate the case, the two detectives quickly realize they're in over their heads. Carpenter, a law enforcement officer for over twenty years, has never worked a murder case. With more than one suspect in the small town, they opt to call their friend, Josh Trimble, from the Minnesota Department of Criminal Apprehension. An arrest is made, but is this person the murderer? The three detectives have some doubts, but the inexperienced county attorney insists on an indictment. While the detectives review the clues, a trial takes place, and with lives at stake, revelations after the trial break the case wide open in *The Janitor Solves a Murder*.
