Division of measure includes counting rest values as well as note values. A mistake in counting note values while playing is heard and corrected by the instructor, but counting rest values is a silent business and difficult at times for the instructor to detect just where the mistake was made, or who made the mistake. 101 Rhythmic Rest Patterns will help solve that problem, as the unison feature will enable the instructor and the whole ensemble to count aloud all in unison, on any or all rest patterns until each rest pattern is perfect.

In this inspirational book, author Kenneth Raessler draws on his more than four decades of experience as a music teacher to offer his thoughts on the current state and future of music education in the United States, from elementary school to the university level. It serves as a challenge to all music educators to assess their priorities, their goals, and the sequence of instruction in their school districts or their universities. Topics addressed include building support within the community, developing a comprehensive curriculum, and avoiding burnout.

Intermediate level etudes for the study of time, meter, and rhythm challenges in modern music. Includes 15 articulation studies and 21 "odd meter etudes." Three excerpts from Handel, Tchaikovsky, and Beethoven, which have odd and changing meters, are included.

Responsive Classroom practices have helped thousands of special area teachers for more than 30 years. Here you'll find practical suggestions, charts, planners, and examples from experienced special area teachers who use Responsive Classroom practices every day. You'll learn how to: Open and close each period in calm, orderly ways Set students up for success by modeling and practicing skills and routines Use positive teacher language Engage students more deeply Refocus and recharge students with quick, fun, movement breaks Respond to misbehavior to get students back to learning

"If you can speak, you can sing." In this must-read book for anyone looking to learn more about their voice, Richard Fink IV shows how singers, from beginners to seasoned professionals, can reach their full potential through a scientific lens. Drawing from his own experiences of overcoming obstacles and learning how to sing, Richard, a now celebrated singing teacher and Guinness World Record holder as a vocalist, breaks down the only vocal methodology in history to receive a US Patent, the Throga® Technique. In the 7 Dimensions of Singing, readers are taken on a journey through vocal anatomy, accelerated skill training, self-diagnostics and customizable solutions. Readers can also explore chapter exercises first-hand by jumping online to download audio examples and practice tracks. Throughout the book, Richard brilliantly weaves the coordination of complex physiological structures into simple concepts, by comparing them to everyday activities, along with dynamic examples of real-world applications from Throga students, from performing on the streets of Sydney, Australia, to nervously waiting backstage at Radio City Music Hall in New York and defying the odds with a life-threatening lung disease. The 7 Dimensions of Singing (The Throga® Technique) is essential for singers of all ages, styles, and skill levels, helping to connect the mind (the singer) and the body (the instrument) through awareness and mindful-practice.

The design philosophies of Google and Apple represent different approaches to new product design. Google's model features bottom-up and data-driven decision-making processes, while Apple's model is to design and build products top-down. Library instruction program design may learn from these differing but complementary approaches. Inspired by Google's and Apple's success, Library Instruction Design details how library instruction program design may learn from the philosophy of product design in the business world. In designing library instruction, a Google-philosophy approach teaches what the user wants to know while an Apple-philosophy approach teaches what the librarian thinks the user needs to learn. These two design philosophies aim at different teaching objectives reflecting library and information science education in modern society. The book is divided into five sections, with opening sections covering library instruction, the philosophy of library instruction design and design philosophy from different angles. Later sections discuss applying Google's model and applying Apple's

model. Offers a creative way to think about library instruction program design Suggests two design approaches grounded in two philosophies, represented by the design approaches of Google and Apple Details the differences and complementarities between top-down and bottom-up approaches to design

"Cool Calypso," "Lazy Days," and "Spider in the Batch" are just three of the imaginative pieces in this jazzy collection from piano writer and arranger Pam Wedgwood. Ideal as recital repertoire or just for fun, these 36 pieces are gently progressive and carefully tailored for elementary to intermediate level players. A perfect introduction to a jazzy style of playing! About the composer: Pam Wedgwood has established an international reputation as one of the UK's best writers and arrangers of music in popular styles. Pam's unique approach and ability to write catchy tunes has a global appeal, and her books and workshops are in high demand across the world.

(Piano Solo Songbook). Cool, jazzy arrangements of 23 most-requested standards at the piano lounge, including: Blue Moon * Cocktails for Two * Dream a Little Dream of Me * Fly Me to the Moon (In Other Words) * Georgia on My Mind * Hey There * I Left My Heart in San Francisco * I'm in the Mood for Love * The Lady Is a Tramp * Lullaby of Birdland * Mack the Knife * More (Ti Guardero Nel Cuore) * Over the Rainbow * Puttin' on the Ritz * Speak Low * The Very Thought of You * and more.

The much-loved tale of Maria and the von Trapp family is magically brought to life in this spectacular pop-up format. Based on the classic musical, this pop-up book transports the reader from the peaceful abbey to the lush green hills and breathtaking Austrian Alps. With intricate visual pops and lyrics from some of the memorable songs, such as 'My Favourite Things', 'Edelweiss', and 'Do-Re-Mi', The Sound of Music pop-up is sure to become a favourite thing in any family's library.
