Transcultural Nursing Theory and Models: Application in ...

In 1950's Medeleine M. Leininger, known as the foundress of Transcultural Nursing, noted cultural differences between patients and nurses while working with emotionally disturbed children. This experience led to study clinical difference in perception of the care. She recognized that health and illness states are strongly influenced by culture and formulated the theory of Transcultural Nursing.

Transcultural nursing - SlideShare

Transcultural nursing is how professional nursing interacts with the concept of culture. Based in anthropology and nursing, it is supported by nursing theory, research, and practice. It is a specific cognitive specialty in nursing that focuses on global cultures and comparative cultural caring, health, and nursing phenomena. It was established in 1955 as a formal area of inquiry and practice. It is a body of knowledge that assists in providing culturally appropriate nursing care.

"Transcultural Nursing Theory and Models: Application in Nursing Education, Practice, and Administration is a must read for the nurse currently practicing. National and global changes in demographics, a changing global economy, have further dramatized the need for culturally competent nurses. I found this book to be what I had hoped for and more related to my understanding of the concept of transcultural nursing (TCN)...I would highly recommend this book to any nurse who is looking to deepen her understanding of the many diverse cultures she encounters at the bedside, or out in the community using components of the theory, models and assessment guide presented in this book."--Advance for Nurses "This book makes a worthwhile contribution to the field of transcultural nursing by complementing texts that introduce theory and models or delve into them individually and more deeply. Sagar contributes her expertise as a Transcultural Nursing Scholar by focusing on how to use the models and guide. She explains and shows the readerhow transcultural nursing theory can be disseminated and implemented."--Online Journal of Cultural Competence in Nursing and Healthcare This volume is the first to examine and promote the application of current, major transcultural nursing (TCN) theory and models and assessment tools in nursing education, practice, and administration. The most comprehensive guide to transcultural nursing in global settings, covering pain management, mental health therapies, child-rearing practices, certification, and much more. Features comparisons of western and non-western cultures, and information on multiple cultures of urban USA.

How do you perceive your cultural identity? All of us are shaped by the cultures we interact with and the cultural backgrounds and ethnicities that are part of our heritage. Take a dynamic approach to the study of culture and health care relationships. Dr. Marilyn A. Ray shows us how cultures influence one another through inter-cultural relationships, technology, globalization, and mass communication, and how these influences directly shape our cultural identities in today's world. She integrates theory, practice, and evidence of transcultural caring to show you how to apply transcultural awareness to your clinical decision making. Go beyond common stereotypes using a framework that can positively impact the nurse-patient relationship and the decision-making process. You'll learn how to deliver culturally competent care through the selection and application of transcultural assessment, planning and negotiation tools for interventions.

This book presents a review of, and ways of applying, major transcultural nursing (TCN) models and assessment tools in nursing education, practice, and administration.A textbook for BSN and MSN levels, it features case studies, care plans, initial role playing exercises and implications of TCN concepts when planning, implementing and evaluating client care. NCLEX-type questions/answers are provided per model. Content mirrors AACN curricular guidelines for health care models.

The most comprehensive guide to transcultural nursing in global settings, covering pain management, mental health therapies, child-rearing practices, certification, and much more. Features comparisons of western and non-western cultures, and information on multiple cultures of urban USA.

The Most Comprehensive Presentation of Transcultural Nursing Concepts Featuring the Newly Revised Sunrise Enabler! Leininger's Transcultural Nursing: Concepts,Theories, Research & Practices, Fourth Edition offers theoretical and practical guidance on the provision of client-focused care by integrating cultural values, beliefs, and lifeways into an individualized plan of care. Transcultural nursing is a vital, holistic approach that allows nurses and other healthcare providers to provide culturally congruent care for individuals, families, groups, and organizations within a context that is meaningful, beneficial, and inclusive of their healthcare values, beliefs, practices, traditions, communication styles, diverse roles,dietary preferences, and more.
