Glamour is an alluring but elusive concept. We most readily associate it with fashion, industrial design, and Hollywood of the Golden Age, and yet it also shaped the language and interests of high modernism. In *Glamour in Six Dimensions*, Judith Brown looks at the historical and aesthetic roots of glamour in the early decades of the twentieth century, arguing that glamour is the defining aesthetic of modernism. In the clean lines of modernism she finds the ideal conditions for glamour-blankness, polish, impenetrability, and the suspicion of emptiness behind it all. Brown focuses on several cultural products that she argues helped to shape glamour's meanings: the most significant perfume of the twentieth century, Chanel No. 5; the idea of the Jazz Age and its ubiquitous cigarette; the celebrity photograph; the staging of primitivism; and the invention of a shimmering plastic called cellophane. Alongside these artifacts, she takes up the development, refinement, and analysis of glamour in Anglo-American poetry, film, fiction, and drama of the period. *Glamour in Six Dimensions* thus asks its reader to see the proximity between the vernacular and elite cultures of modernism, and particularly how glamour was animated by artists working at the crossroads of the mundane and the extraordinary: Wallace Stevens, F. Scott Fitzgerald, Virginia Woolf, Josephine Baker, D. H. Lawrence, Gertrude Stein, Nella Larsen, and others.

"The White Man does not understand the Indian for the reason that he does not understand America. He is too far removed from its formative process. The roots of the tree of his life have not yet grasped rock and soil." The words of Lakota writer Luther Standing Bear foretold the current debate on the value of Native American studies in higher education. *Studying Native America* addresses for

the first time in a comprehensive way the place of this critical discipline in the university curriculum. Leading scholars in anthropology, demography, English and literature, history, law, social work, linguistics, public health, psychology, and sociology have come together to explore what Native American studies has been, what it is, and what it may be in the future. The book's thirteen contributors and editor Russell Thornton, stress the frequent incompatibility of traditional academic teaching methods with the social and cultural concerns that gave rise to the field of Native American studies. Beginning with the intellectual and institutional history of Native American studies, the book examines its literature, language, historical narratives, and anthropology. The volume discusses the effects on Native American studies of law and constitutionalism; cosmology, epistemology, and religion; identity; demography; colonialism and post-colonialism; science and technology; and repatriation of human remains and cultural objects. Contributors to *Studying Native America* include Raymond J. DeMallie, Bonnie Duran, Eduardo Duran, Raymond D. Fogelson, Clara Sue Kidwell, Kerwin Lee Klein, Melissa L. Meyer, John H. Moore, Peter Nabokov, Katheryn Shanley, C. Matthew Snipp, Rennard Strickland, Russell Thornton, J. Randolph Valentine, Robert Allen Warrior, Richard White, and Maria Yellowhorse-Braveheart. The book is sponsored in part by the Social Science Research Council.
