Writing an amazing college admission essay is easier than you think! So you're a high school senior given the task of writing a 650-word personal statement for your college application. Do you tell the story of your life, or a story from your life? Do you choose a single moment? If so, which one? The options seem endless. Lucky for you, they're not. College counselor Ethan Sawyer (aka The College Essay Guy) will show you that there are only four (really, four!) types of college admission essays. And all you have to do to figure out which type is best for you is answer two simple questions: 1. Have you experienced significant challenges in your life? 2. Do you know what you want to be or do in the future? With these questions providing the building blocks for your essay, Sawyer guides you through the rest of the process, from choosing a structure to revising your essay, and answers the big questions that have probably been keeping you up at night: How do I brag in a way that doesn't sound like bragging? and How do I make my essay, like, deep? Packed with tips, tricks, exercises, and sample essays from real students who got into their dream schools, College Essay Essentials is the only college essay guide to make this complicated process logical, simple, and (dare we say it?) a little bit fun.

"[A] stunning tale of academic fraud . . . shocking and compelling."-The Washington Post Dave Tomar wrote term papers for a living. Technically, the papers were "study guides," and the companies he wrote for-there are quite a few-are completely aboveboard and easily found with a quick web search. For as little as ten dollars a page, these paper mills provide a custom essay, written to the specifics of any course assignment. During Tomar's career as an academic surrogate, he wrote made-to-order papers for everything from introductory college courses to Ph.D. dissertations. There was never a shortage of demand for his services. The Shadow Scholar is the story of this dubious but all-too-common career. In turns shocking, absurd, and ultimately sobering, Tomar explores not merely his own misdeeds but the bureaucratic and cash-hungry colleges, lazy students, and even misguided parents who help make it all possible.

Writing, for most of us, is bound up with anxiety. It's even worse when it feels like your whole future-or at least where you'll spend the next four years in college-is on the line. It's easy to understand why so many high school seniors put off working on their applications until the last minute or end up with a generic and clichéd essay. The good news? You already have the "secret sauce" for crafting a compelling personal essay: your own experiences and your unique voice. The best essays rarely catalog how students have succeeded or achieved. Good writing shows the reader how you've struggled and describes mistakes you've made. Excellent essays express what you're fired up about, illustrate how you think, and illuminate the ways you've grown. More than twenty million students apply to college every year; many of them look similar in terms of test scores, grades, courses taken, extracurricular activities. Admissions officers wade through piles of files. As an applicant, you need to think about what will interest an exhausted reader. What can you write that will make her argue to admit you instead of the thousands of other applicants? A good essay will be conversational and rich in vivid details, and it could only be written by one person-you. This book will help you figure out how to find and present the best in yourself. You'll acquire some useful tools for writing well-and may even have fun-in the process.

Have you ever wondered why some people can produce a well-structured, relevant essay written in a style that seems to glide across the page with the minimum of fuss? Do you think some people simply have these skills, and others don't, and that there is nothing we can do about it? This book just might change your mind. Addressing each landmark stage of the essay writing process, How to Write Better Essays teaches you how to... • analyse the question and break down difficult terms and concepts • brainstorm effectively and generate your own ideas • evaluate and criticise arguments • express your thoughts coherently and develop your own style of writing • plan and structure your essay from introduction to conclusion ...and along the way, practical techniques show how to analyse, criticise, discuss and evaluate material, improve your style, revise your final draft and avoid plagiarism. This second edition features a unique troubleshooting section allowing you easily to locate solutions to your writing problems, additional chapters on paragraphs and style, and end of chapter summaries. In short, this book is the constant source of assistance and inspiration you need to tackle your essays with confidence!

A winning college application essay takes admission officers beyond the numbers and shows them what a student really cares about, how he/she thinks and who he/she really is. The College Application Essay by Sarah Myers McGinty is an easy-to-follow guide shows students how to maximize the opportunity to "tell us about yourself" by using the tools and skills they already have. Includes: Ways to choose a topic Strategies for distinctive answers Remedies for procrastinators Jumpstarts for writer's block Tips on editing Over 50 real application questions Sample essays by real students Critiques of the sample essays guide students toward the best practices and away from common mistakes.
