Industrial organization is an analysis of factors, operational or otherwise, that contribute to a firm's overall strategy and product placement. It involves a study of different areas, from market...

Industrial Organization Definition

One approach is descriptive in providing an overview of industrial organization, such as measures of competition and the size-concentration of firms in an industry. A second approach uses microeconomic models to explain internal firm organization and market strategy, which includes internal research and development along with issues of internal reorganization and renewal. [4]

Industrial organization - Wikipedia

Big firms use industrial organizational model strategy to help maintain a large stake in a highly segmented market. In this economic model, there are few firms pegging their product against limited competitors using advertising information, strategic government alliances and production and transaction costs.
