Read Online Fetal Pig Dissection 36a Answers

Introduction: In this lab you will be examining many characteristics of an unborn mammal--the fetal pig. Dissection will help you to get a 3-dimensional picture of how all the systems fit together in an entire organism. You've seen separate diagrams of many of the major systems. Now you'll get to see how they are all arranged spatially.

Fetal Pig Dissection Lab - Mater Academy Charter School

The pig dissection was a learning experience that allowed students to distinguish the many organs and organ systems in the pig's body and, ultimately, the organs and organ systems of the human body. Although the pig fetus was larger than what was expected, the procedure went well and all the necessary parts of the pig were visible.

Yet Project Lead The Way (PLTW)—a national company that creates science, technology, engineering, and math (STEM) curricula for students and teachers—still embraces the dissection of once-living animals obtained from slaughterhouses in its program, including the use of sheep brains and hearts, cow eyes, pig kidneys, and fetal pigs.

Keep Fetal Pigs, Sheep Brains, and Cow Eyes out of ...

Abstract Through the dissection of the fetal pig, we were able to compare and contrast the structure and functions of the organs to those of a human. We dissected the pig and observed all the exterior and interior structures. We found that because both are mammals, the fetal pig's structure was almost identical to the human body.

Fetal Pig Lab Report Essay - 687 Words
