Kindness | Cram

According to Lee Rowland—lead author of the paper, director of research at Kindness.org (which supported the research), and research associate at the University of Oxford—being kind to others, whether or not we are close to them, may be inherently rewarding for us and activate an evolved neuro-biological system involved in caring for others. He also suggests that observing kindness is a way of noticing the good around us—rather than seeing a world full of stress and bad news—which ...
