The Hennepin County Community Health Department, with the support of the local and state disease prevention and control staff and childcare consultants, created a manual for childcare and schools. Infectious Diseases in Childcare Settings and Schools A manual with information for Directors, Caregivers, Parents or Guardians and School Health Staff.

Infectious Diseases in Childcare Settings and Schools Manual

Ear infections. Ear infections are very common in children and are caused by a dysfunction of the Eustachian tubes, the tubes that connect the inner ears to the throat and serve as a drain for any fluid that may collect there. When fluid collects, it attracts bacteria and other germs, which may multiply and cause a symptomatic infection. Symptoms include fever, ear pain, tugging on the ear, or ...
