Mikuni Jet Size Guides
Mikuni offers several needle jet sizes and as mentioned before, a wide variety of needles as well. If at anytime during testing you change the position of the needle, the needle itself, the jet or the throttle slide, you will need to perform a plug check relative and specific to that range of performance (i.e. low mid-range, cruise, etc).

Mikuni Tuning and Jetting Guide - THE VINTAGE BIKE BUILDER
The standard main jet fitted to the HSR42 is a number 160. This size is correct for stock mufflers. Typically, an HSR42 combined with aftermarket exhaust system needs a 165 main jet. The general rule is that HSR42s fitted to engines with loud exhausts usually run best with a 165 main jet.

Mikuni American Corporation
The Mikuni substantially increases power compared to the stock carburetor. However it is the dramatic improvement in throttle response that makes the Mikuni flatslide HSR carburetors such outstanding performers. No carburetor made today can match the Mikuni in this regard.

Mikuni American Corporation
Mikuni Jet Size Guides On many Mikuni carbs, the main jet is either attached to or sharing the same chamber as the needle jet. One more thing about the needle. These jet needles are available in many sizes to fine tune fuel flow. The are available in Page 4/28. Where To Download Mikuni jet

Mikuni Jet Size Guides - 25net.pleasepst.me
body (assuming it's a genuine Mikuni needle jet): 1) the upper three digit number identifies which type of needle jet it is e.g. 159, 171, etc. 2) the lower two-character alpha-numeric identifies the size of the needle jet e.g. N-5, Q-3, etc.

Smaller race engines such as the 125cc would do best with the 35mm bore size instead. 9) Mikuni TM Series Flat Slide 33mm Carburetor. Like other Mikuni carburetors, the TM Series 33mm improves throttle response on motorcycles. The air flows faster in the TM series and the flat slide design blocks the jet helping to create a smooth bore effect.

Mikuni Carb Identification: How to tell which one you have
Mikuni Genuine Carburetor Jets To select a jet type "HOVER" over jets on the menu to the left of the screen and click on your relevant selection from the drop down list. There are numerous versions of each jet type so the removal of one of your jets to make a positive identification is essential.

Mikuni Genuine Carburetor Jets - Jets | Mikunioz
Does a chart exist, that crosses jet sizing ,size#, to the exact, thousandth of an inch diameter that the jet actually is for example, {ie. # 35 = .016 etc.) I have some cb750k 1978 carbs ,that the slo jets , are too far gone{press type} and I would like to make replacements for them.

Carb jet# sizing cross referencing to inch sizes.
