to increase value; and producing prototype lab trial samples.

## **Food Scientist Resume Examples | JobHero**

The Food Safety Objective (FSO) concept describes an approach to setting microbial FSOs and specifying the elements and parameters of the Hazard Analysis Critical Control Point (HACCP)

# Access Free Objective Food Science

system, which establishes control of the food-processing operation. The FSO concept recognizes that the ultimate objective of a food safety system is to prevent illnesses by focusing food-manufacturing attention and activities on preventing or minimizing exposure of the consumer to pathogens.
