The origins of the Journal of Plant Physiology trace back to 1818 and to the geographic region Alexander von Humboldt was most active in. For these reasons, we consider Alexander von Humboldt a particularly appropriate scholar after whom to name our new review series.

New article type introduced - Humboldt Review - Elsevier

Similarly, Si also protects plant against biotic stress by modulating metabolism i.e. induction of programmed cell death, lignin formation, etc. of plants. Therefore, in recent years, silicon research has achieved an escalating interest in agriculture due to its efficacy and advantageous impact in several agricultural crop species.
