Service Engine Soon Light Ford

Ford Check Engine Light (CEL), also known as service engine soon (SES) warning, will stay on if a problem has been detected by the On-Board Diagnostic System (OBD-II). Under normal operation, Ford check engine light will turn on when you turn on the ignition but should turn off and stay off once you start the engine. Symptoms

Troubleshooting Ford Check Engine Light | YOUCANIC

A "service engine soon" (SES) light is an easy way for your Ford's onboard computer system to bring potential engine problems or failing parts to your attention. However, once you have had the repair completed, the light may not reset itself automatically. To turn the light off, you must perform a manual reset of your Ford's computer system.

How to Reset a Service Engine Light on a Ford | It Still Runs

If the Service Engine Soon indicator light stays lit after you've started the engine, the On Board Diagnostics system (OBD) has detected a malfunction of the vehicle emissions control system. Contact your authorized dealer as soon as possible. If indicator light is blinking, an engine misfire may be occurring, which could damage your ...
